EDUCATION

Del Norte High School

📅 2023 - 2027

📍 San Diego, CA

SKILLS

- Full-Stack Development
- Scrum
- Presentation Skills
- 3D Modelling
- Game Development
- 3D Graphics
- Project Management
- Team Leadership

Extracurriculars

- Education at Casper College through Texas A&M to learn fundamentals of quantum physics
- Education at Virginia Tech to learn about quantum computing
- Major projects in CSP to be applied in industry level companies.

Experience

Software Development

CSSE, AP CSP, & AP CSA

📅 Aug 2023 - current

📍 San Diego, CA

- Gained foundational and advanced programming skills, including algorithm design, debugging, and object-oriented programming.
- Developed and documented full software projects using industry-standard tools like Git, IDEs, and version control systems.
- Explored the societal, ethical, and global impacts of computing, including data privacy and digital communication.
- Applied computational thinking and data analysis to solve real-world problems and visualize data effectively.
- Collaborated on team-based software development projects using agile methodologies and professional coding practices.

Quantum Science

Casper College & Virginia Tech

📅 July 2024 - Aug 2024

📍 Casper, WY

- Gained a foundational understanding of quantum mechanics principles, including superposition, entanglement, and wave-particle duality.
- Explored the behavior of light through classical and quantum optics, including interference, diffraction, and polarization.
- Analyzed quantum systems using mathematical tools such as linear algebra, probability, and complex numbers.
- Investigated real-world applications like quantum computing, cryptography, and photonic technologies.
- Conducted experiments or simulations modeling quantum and optical phenomena, reinforcing theoretical concepts through hands-on learning.
